# TELLUS

The Merseyside Police website is the quickest, easiest and most reliable way of sharing information with us.

As a partner agency your aims are often the same as ours - to keep people safe and improve the places where they live and work.

If you have information about crime, anti-social behaviour or vulnerable people simply go to our website and click the 'Tell Us About' button.

The form you fill in will be sent to the right people within the police to act on your important information.
